

COMMUNICATION

# Solving technical problems

**LEVEL**

Intermediate (B1)

**NUMBER**

EN\_B1\_1013X

**LANGUAGE**

English

## Learning outcomes

- I can describe a simple technical problem and ask for help to fix it.
- I can offer suggestions for how to fix a simple technical problem.

# Warm-up

Choose one of the **questions** and **ask** a classmate to find out more about them.

Option: Use **breakout rooms** and share what you learned about your classmate afterwards!

What device are you using right now?

What's your favourite device for video-calls?

How many devices do you have at home?

How often do you have problems with your devices?

# Discuss

Answer the questions below to **prepare for the text** on the next slide.

**What do we mean by tech support?**

**When was the last time you called tech support?**

# Reading

Read the text below and **answer the questions** in the red box.

**Darren:** Hello, this is Darren from tech support. How can I help you?

**Bianca:** Hi Darren. It's Bianca from Finance. I have a video-call this afternoon, but I think the office Wi-Fi is down. My video-calling software also keeps crashing and now my screen is completely frozen.

**Darren:** Hmmm. Looks like you have a few issues there. Let's see what we can do. Can you restart your laptop? Press and hold the power button for five seconds.

**Bianca:** Sure. Oh! The screen just went blank. I can't see anything.

1. Which department does Darren work in?
2. Why does Bianca call Darren?
3. What is the first thing Darren tells Bianca to do?

# Reading

Read the text below and **answer the questions** in the red box.

**Darren:** It needs to restart. Give it a moment... How about now? Is it any better?

**Bianca:** Hang on a sec... Yes! It looks like it's working fine now. Thanks!

**Darren:** Happy to help! Now try disconnecting and then connecting to the internet again. If the Wi-Fi continues to cause problems for you, we'll need to contact our internet provider to get it fixed.

4. What is the second thing Darren tells Bianca to do?
5. Are Bianca's technical problems solved?

**Give it a moment...**

**Hang on a sec...**

Do these phrases have the same meaning?

Discuss with your teacher and classmates.

**How about now?**  
**Is it any better?**

Darren asks Bianca this question in the text, after she follows his instructions to restart her laptop.

What does he want to know? Can you think of another way to ask this?

“

**Looks like** there's a problem with the hardware.

**It looks like** it's working fine now!

What does **(it) looks like** mean in these sentences?

How sure are the speakers?

# Complete the dialogue

**Fill in the gaps** using the phrases in the red box, to complete the dialogue between a tech support agent and a caller. Afterwards, **practise the dialogue** with a classmate, taking turns being the tech support agent and the caller.

1 Hi, it's Lucy from tech support here! \_\_\_\_\_

2 Hi Lucy. I'm calling because I have a problem logging into my account. I \_\_\_\_\_ an error message.

3 \_\_\_\_\_ there are a lot of people trying to access the platform right now. That might be the problem. Try restarting the browser.

4 \_\_\_\_\_... Ok, I've done that. I'm logging in again...

5 \_\_\_\_\_ Is that any better?

Hang on a sec

keep seeing

How about now?

(It) looks like...

How can I help you?

## keep + *-ing*

The software **keeps crashing**.

I can't work because my screen **keeps freezing**.

Your audio **keeps cutting out** – we can't hear you.

I **keep dropping** my phone when I go for a run and now it's broken.

- When something happens **again and again**, we can say it \_\_\_\_\_ happening.
- What does **cutting out** mean in this context? Does this ever happen to you?

## Practise using *keep* + *-ing form*

Use the phrase *keep + ing form* and the verbs in the red box to complete the technical problems.

1 I don't know why my audio \_\_\_\_\_. Maybe there's something wrong with my mic.

2 My laptop \_\_\_\_\_ from the Wi-Fi.

3 I \_\_\_\_\_ problems whenever I open my browser. Maybe I need to update it to the latest version.

4 The video-call software \_\_\_\_\_ every time I try to open it. Are you having the same problem, or is it just me?

have  
crash  
disconnect  
cut out

## Try + -ing

Oh no, my screen just went blank!

**Try restarting** it... Give it a moment... How about now?

- We use \_\_\_\_\_ + verb (in *-ing form*) to give someone advice on how to fix a technical problem.
- We can also use this verb after the phrase: **why don't you...** to be even more polite.
- Can you rephrase the advice in the box using **why don't you...?**

# Giving advice politely

Rephrase the advice below using the verb **to try** to make it sound more polite.

1 **Turn** your phone off and on again.

---

---

2 **Call** your internet provider.

---

---

3 **Speak** to tech support. They're usually quite helpful!

---

---

4 **Fix** it yourself before you take it to the computer repair shop.

---

---

5 **Connect** to a different Wi-Fi network.

---

---

# Preparation for roleplay

**Categorise** the phrases below.  
Which phrases does a **tech support agent** use? Which does a **caller** use?

How can I help?

Try...

Looks like...

Hang on a sec...

... keeps ...

How about now?

Give it a moment...

Happy to help!

Can you...?

Could you...?

# Calling tech support

**Role-play a conversation** between a tech support agent and a caller needing urgent help. The call is being **recorded** for training purposes: the other students in the class **make notes**.

**Feedback:** Was the tech support agent helpful? Was the caller satisfied with the service?

1

**Tech support:** Introduce yourself and prepare to help the caller.

**Caller:** Describe your technical problem(s) in detail. Let them know that you need urgent help because... (explain your situation).

2

**Tech support:** Respond to the caller's situation. Ask them questions to find out more information. First, try to identify the problem. Give advice.

**Caller:** Answer the tech support agent's questions. Respond to their advice.

3

**Caller:** The problem hasn't been solved and you don't have much time. Try to get an answer!

**Tech support:** Do your best to help the caller.

# End of the lesson

Idiom

***We got our wires crossed somehow!***

**Meaning:** to be confused because of a misunderstanding  
between two people in a conversation

# Additional practice

# Correct these sentences

Find the **mistakes** in these sentences and say them correctly to your teacher.

1

**Can you turning off your computer?**

2

**I can't to see anything on my screen.**

3

**Could you to repeat that?**

4

**Do you check your Wi-Fi connection please?**

# Practise keep + -ing

Use the phrase *keep + ing* and the verbs in the red box to complete these sentences.

- 1 Ugh, my screen \_\_\_\_\_ whenever I'm watching a movie – always during a really big scene. I need a new computer!
- 2 My phone \_\_\_\_\_ to the Bluetooth and then my battery runs out.
- 3 I \_\_\_\_\_ issues with the Wi-Fi when I work from home. I need to find a new internet provider.
- 4 The website \_\_\_\_\_ because so many people are using it.

have  
crash  
connect  
cut out  
freeze

# Discuss

**Would working in tech support be fun? Why or why not?**

**Do you think you would like to work from home? Why or why not?**

# Practise *keep* + *-ing* and *try* + *-ing*

**Practise describing and giving advice** about technical problems. Take a moment to make some notes for your role. You can use the verbs in the red box to help you, as well as your own ideas.

## Student A

Describe your ongoing technical problems.

My \_\_\_\_\_ keeps \_\_\_\_\_

## Student B

Give student A advice about their problems.

Try \_\_\_\_\_

- |                |                    |
|----------------|--------------------|
| ● freeze       | ● go blank         |
| ● crash        | ● restart          |
| ● cut out      | ● turn off         |
| ● (dis)connect | ● cause (problems) |

# Build sentences

**Build complete sentences** using the phrases in the first box and the verbs in the second box. You can also come up with your own verbs.

*My mother keeps asking why I don't have kids.*

*Try listening to classical music – it really helps me to concentrate.*

## keep + -ing and try + -ing

- (It) keeps...
- Try...
- Why don't you try...
- You should try...

## verbs

- |          |                |
|----------|----------------|
| • work   | • break        |
| • wake   | • (dis)connect |
| • do     | • go           |
| • change |                |
| • ask    |                |

# Discuss these scenarios

**Choose** a situation. **What do you do** if this happens?

Has anything similar ever happened to you? How did you respond?

You have a major technical issue during a very important meeting at work...

You are about to give an online presentation to a large audience, but the Wi-Fi is down...

You have an interview online for your dream job and your laptop crashes 15 minutes before the video-call...

You just bought the latest version of a smartphone and your friend knocks it out of your hand accidentally...

## Discuss

Do you do these things? Is there anything here that you don't (or can't) do? Expand on your answer (eg: *I don't play computer games, because I find them boring. My son does. He plays...*)

play computer  
games

use online  
banking

shop online

record music and  
videos

create a  
website

take part in a  
video-calls very  
regularly

solve most  
technical  
problems myself

code

build and repair  
computers

## Discuss

# Could we live without technology?

We could live without it...  
We couldn't live without it...

# Discuss

**Can people still work as hard from outside of the office?**

**How stable is the internet connection in your area?**

# Answer key

## P. 5:

1. Darren works in the technical support department
2. **Possible answers:** She is having technical problems; She is having problems with the office WiFi/her video-calling software; She needs his help
3. Darren tells her to restart her laptop

## P.6:

4. Darren tells Bianca to try disconnecting and then reconnecting to the internet.
5. Bianca says that it looks like it's working fine. We don't know if she will be able to connect to the internet.

## P.7:

1. Hang on a sec
2. Give it a moment

**P.8:** He wants to know if the problem is fixed... He could ask: 'Is it working now?'

**P.9:** The phrase *(It) looks like* in these sentences means: I think there's a problem with the hardware; It seems to be working fine now

No – we use this phrase to say that something is probably the case, but we are not fully sure.

**P.10:** 1. How can I help you? 2. keep seeing 3. It looks like 4. Hang on a sec 5. How about now?

# Answer key

## P.11

1. keeps 2. stopping and starting; potential causes: internet connection, problem with the mic, accidentally pressing mute

**P.12** 1. keeps cutting out 2. keeps disconnecting 3. keep having 4. keeps crashing

**P.13** 1. Try 2. try disconnecting 3. try turning

**P.14** Try/Why don't you try/You should try... turning; calling; speaking; fixing; connecting

## Additional Practice

### S.20

Can you **turn off** your computer? / Can you **try turning off** your computer?

I can't **see** anything on my screen?

Could you **repeat** that?

**Could** you check your Wi-Fi connection please?

### S. 21

1. keeps freezing 2. keeps connecting 3. keep having 4. keeps crashing

# Summary

## Vocabulary for describing and solving technical problems

- Verbs: crash, (dis)connect, cut out, go blank, to freeze
- Phrases: How about now? Give it a moment... Hang on a sec... Happy to help!

## *keep + -ing and try + -ing*

- Use *keep + -ing* to talk about something that happens again and again: My audio **keeps cutting out**
- Use *try + -ing* to make suggestions: **Try disconnecting** and connecting again.

## **(It) looks like...**

- We use this phrase to say that something *seems* to be the case (but we aren't fully sure): **Looks like** your screen is broken – you'll probably have to replace it.

## Modals *can* and *could*

- Are useful for discussing problems and solutions: offering help, asking for help, expressing ability
